CLASS

The traditional quality tool bag.

Made in high thickness hardened genuine tanned leather, this roomy bag comes with front and rear collapsible walls to grant full access to all inside areas.

Quality metal snap closures with keys, metal feet, rivets reinforced body and a large frontal document pocket make this bag an ideal light weight though reliable companion for multi purpose use.

Article number: **CLASS-3**

Colour: **Black Leather**

Internal dimensions: **L:410 H:310 D:180 mm.**

Net Weight: **3,0 kilos**

EAN code: **8024482016306**

This bag comes with four tool walls equipped with pockets: a double one in the middle, a front and a rear ones.

The zinc plated metal bottom tray gives resistance to the whole body of the bag while creating an additional spare tools storage area.

A comfortable and adjustable shoulder strap is included.

SOFT

The modern lightweight compact tool bag.

Made in lightweight anti-tug water resistant fabric, this zipped bag has two side pockets for measuring equipments on one side, and a large document pocket on the other side.

The handles are reinforced with neoprene material for an additional easy carrying.

Article number: SOFT-1

Colour: Gray and Black

Internal dimensions: L:440 W:330 D:80 mm.

Net weight: 1,4 kilos

EAN code: 8024482016313

This bag comes with two removable tool boards with adjustable elasticated loops, provided in a set complete with plastic clips and metal ends.

This allows the user to configure the pallets on his specific needs while making the best use of all inner space of this bag.

The bottom area has a pouch where a ceramic tip is included for a safe hot soldering iron storage.

UBOX

The tough utility box companion.

Injection moulded polypropylene box ideal to carry along large mechanical components, spare parts, power tools, etc..., provided with two hard wearing wheels, can be used as a trolley, carried by two men by mean of the two side handles, or by the single frontal large handle.

It's weather proof, crash resistant and do not rust; it's fully stackable and able to contain up to 50 kilos of weight; comes with two robust latches and four padlockable areas, ideal for field use and long flight transportation as well.

The inside area is completely empty, but can be provided with two removable trays with an adjustable divider, available separately on demand, to contain accessories, gloves and cables.

The trays are also provided with optional removable elastic loops to secure hand-tools or other accessories.

Article number: **UBOX**

Colour: **Black**

Internal dimensions: **L:780 W:410 D:330 mm.**

Net weight: **6,30 kilos**

EAN code: **8024482016917**
